WHAT IS BASE?

BALLARD ACADEMY FOR STUDENT ENTREPRENEURS

Launching a startup as a student entrepreneur comes with unique challenges—balancing classes, navigating limited funding, and managing complex legal issues can feel overwhelming. Ballard Spahr understands these hurdles and created the Ballard Academy for Student Entrepreneurs (BASE) specifically to address them.

BASE provides free legal support designed to help student entrepreneurs tackle key startup tasks like establishing corporate structures, raising funds, understanding governance, negotiating leases, and handling contracts. Participants in the BASE program collaborate closely with experienced Ballard Spahr attorneys who guide them step-by-step through the legal landscape of launching a business.

Beyond legal assistance, BASE members gain exclusive access to educational workshops, a pool of mentors, connections with fellow student founders, seasoned entrepreneurs, and influential figures in the startup ecosystem.

The program culminates with “BASE Jump,” an event where participants pitch their startups directly to investors, including angel investors, venture capitalists, and private equity professionals. Each year, BASE selects only 15 of the most passionate and promising student entrepreneurs from a wide pool of applicants.

For student entrepreneurs aiming to transform classroom ideas into viable real-world ventures, BASE provides the essential guidance, resources, and community to support their success.

Program Highlights

- \$10,000 in legal services from experienced startup attorney teams
- Monthly academic seminars with industry leaders
- A pool of incredible mentors

“ We can’t imagine where we would be without the BASE program. From getting our corporate documents together to negotiating contracts with vendors, our Ballard team have been a key part in the growth of our company and we are excited to continue working with them following the end of the program. ”

JAI WILLIAMS AND GABRIEL ABBES

Co-Founders of OptiGenix, 2023 BASE Cohort

NATIONALLY DIVERSE COHORTS

INCLUSION IS A CORE VALUE

The BASE program takes great pride in the diversity of its cohorts and seeks to include participants of all backgrounds and perspectives.

“As a 19 y/o startup founder to say I can have my lawyers look over something has been such a blessing. We once emailed our lawyers at 9:32 pm to request to move an appointment and they responded in less than 8 minutes. We really felt respected and like a true Ballard client. I can’t recommend enough the Ballard BASE team.”

DANIEL CHAN

Co-Founder and CEO of Exergi, 2023 BASE Cohort

Our attorneys also acted as advisors during the exit transaction. ”

COMPANY SPOTLIGHTS

GROOV INSOLES

Groov is revolutionizing footwear personalization through its innovative mobile platform. Groov employs proprietary ShapeSense technology, enabling users to scan their feet and shoes using an iPhone's TrueDepth camera. This process generates precise 3D models, which are then utilized by machine learning algorithms to design custom insoles tailored to each individual's unique foot structure and footwear preferences. By integrating at-home biometric scanning with rapid, on-demand manufacturing, Groov delivers personalized insoles directly to consumers, aiming to enhance comfort and performance across various types of footwear.

OWLER.AI

Owler AI is an education technology platform founded in 2023 and headquartered in Chicago. It offers an AI-driven solution designed to streamline the grading process for educators by providing automated, rubric-aligned feedback on student writing assignments. The platform supports various formats, including essays, short answers, and multiple-choice questions, delivering personalized feedback within seconds. Owler AI integrates seamlessly with existing learning management systems, making it adaptable for diverse educational environments. By leveraging advanced analytics, it helps educators identify student progress and areas needing improvement, thereby enhancing teaching efficiency and student outcomes.

Emerging Companies & Venture Capital

We provide strategic counsel to entrepreneurs and early-stage businesses across various industries. The attorneys in our Emerging Companies and Venture Capital Group (ECVC) have decades of experience helping emerging companies thrive—from entity formation, angel and seed financing, preferred financing rounds, and ultimately through a sale or initial public offering.

The group is drawn from the practice areas that are integral to such efforts—business and transactions, intellectual property, finance, labor and employment, tax, health care, government relations, and litigation. Our emerging company clients benefit from our national network of relationships with venture capital and private equity firms, angel investors, investment funds and banks, and public companies that invest in emerging companies.

We are committed to the long-term success of our emerging company clients and offer a wide range of options to help them make the most of their limited resources.

We Help Emerging Companies With:

- Choice of entity and formation guidance
- Angel and seed financing
- Venture capital financing
- Intellectual property counseling and litigation
- Employee benefits and executive compensation
- Crowdfunding
- Labor and employment
- Licensing
- Strategic partnership agreements
- Confidentiality and non-compete agreements
- Tax
- Mergers and acquisitions
- Public offerings and securities matters
- Product commercialization
- Federal, state, and local regulatory compliance
- Corporate governance
- Privacy and data security

Our Value

FIXED FEE MODELS AND MENUS

Our clients are able to take advantage of our fixed fee pricing model for many services.

INTRODUCTIONS BETWEEN COMPANIES AND INVESTORS

We serve as stewards for companies and investors to leverage our network for partnership and investment opportunities.

CONTENT AND EVENTS

BASE Accelerator Programming, WhatsNext Business Festival, Philly Tech Week, Kim's Korner, and other events and programs provide opportunities for learning and networking.

EXTENSIVE EXPERIENCE

Attorneys in our practice teach ECVC in entrepreneurial programs at several universities, including The University of Pennsylvania, Rowan University, and Princeton University

KNOWLEDGEABLE ASSOCIATES

Associates get extensive practical training through their involvement with our BASE program startup companies.

EXPERIENCE ACROSS THE BOARD

Attorneys who practice in employment, benefits, intellectual property, and regulatory compliance who have direct experience with startups.
