LITIGATION

Helping Clients Achieve Success As They Define It

With more than 340 attorneys nationwide, our litigation practice is the firm's largest. It draws from a deep bench of talented litigators to represent clients in cases ranging from securities class actions and contractual disputes to patent infringement and federal and state appeals.

Ballard Spahr has been recognized as a leading law firm for litigation since 2004 by *Chambers USA: America's Leading Lawyers for Business*. Clients retain us for our ability to identify the problem at the core of a dispute, formulate a strategy to obtain the best result, and skillfully advocate their position in court, in agency and administrative proceedings, and before arbitration panels.

Our litigators have taken the largest and most complex cases to trial, as both plaintiff and defense counsel. We appear before state and federal courts and grand juries throughout the country, including the U.S. Supreme Court, as well as boards and tribunals worldwide. Our experience encompasses major multidistrict litigation.

In addition, our litigators possess significant skill and success with arbitration, mediation, and other alternative dispute resolution (ADR) methods. We have developed ADR programs that enable clients to control individual cases and mass tort actions without public scrutiny and the excessive cost of litigation.

Our approach to litigation is simple and pragmatic—and it begins by identifying what success means to the client. Sometimes victory means a trial win.

Other times, it means an advantageous and creative settlement or use of ADR. Our litigators have the skill and experience to lay out the options, create a winning strategy, and go the distance.

Our litigators are known for their incisive and practical judgment. We identify the issues at the core of the dispute and formulate a focused and effective plan of action. This leads to reduced cycle time, more effective budgeting, increased opportunity for early resolution, and enhanced trial readiness.
